Subject: RE: Bell Drain & Ridge/Fellows dispute

Skip: Sorry for my nonresponse. Yesterday, Tim Luke took the paperwork concerning this matter off my desk so I do not have it to refer to right now. However, my recollection is that my thinking is the same as when we last discussed: if the Bell-Tanner Drain will provide flow to the Bear River, the watermaster should be instructed to curtail these junior uses. I am assuming that prior rights on Bear River are not being satisfied at this time. If I am missing something about this matter, please give me a call and let's discuss. Norm

Subject: Bell Drain & Ridge/Fellows dispute

Several weeks ago I sent you a packet on the dispute between Jim Ridge and Earl Fellows.

Did you have any thoughts on this situation?
